-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of Species group II, Latch group B, Blocking assembly group B in the reply filed on 1/26/06 is acknowledged.

It is agreed that all pending claims 1-39 are readable on the elected species.

### ***Information Disclosure Statement***

2. The information disclosure statement filed 3/27/06 is a duplicate of the IDS filed 9/30/05 and, accordingly, has not been initialed.

### ***Specification***

3. The abstract of the disclosure is objected to because it exceeds 150 words. Correction is required. See MPEP § 608.01(b).

### ***Claim Objections***

4. Claim 19 is objected to because of the following informalities: in line 4, "it" lacks proper antecedent basis. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 3676

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 14-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is unclear from the drawings and specification what is meant by the "third state" of the first actuating assembly in the recitation of claim 14.

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-13,34-39 are rejected under 35 U.S.C. 102(b) as being anticipated by Rice et al 6,406,075. Rice et al teach a latch assembly 20 with a conventional forked pivot latch member (rotor) (col.5, lines 16-21) and further provides a first actuating assembly including a handle 16, a blocking assembly 26/30 with actuating means (key rotor 38), second actuating assemblies comprising either electrical switch means 22 or remote push button means for electrical actuator 52/54/26 (col. 4, last line - col. 5, lines 1-2).

***Allowable Subject Matter***

9. Claims 14-33 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The prior art fails to provide the combination of elements as set forth in claim 14 including a third state of the first actuating assembly which is different from the first and second states, and which changes the blocking assembly into the first state.

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
